Tim called me yesterday and we chatted. Told him where we were. The consultant at the Dry cleaners is telling Tim that they do not think they need to perform Vapor Intrusion Monitoring because, in their opinion, the numbers are below the screening threshold. Tim will add in values that we get for the final round and see where that gets us. We may not be performing that work afterall.

Will you send a courtesy copy to Tim Johnson at IDEM? He is the State's Project Manager working with the Dry Cleaners.
